

Foreign Members Plan

Meuhedet is proud to present the plan for the provision of medical services to foreign resident customers (who are not permanent residents of Israel).

The plan to provide medical services to foreign resident customers offers advanced and the best quality health services, including:

Primary and professional medical services, pharmacies, laboratory services, institutes and more, with the best medical teams in Israel. The high standard of services at "Meuhedet" affords you and your family peace of mind during your stay in Israel.

These services are subject to the provisions of the plan detailed on Meuhedet's website.

Please read these regulations before joining the plan; this, so that you know your rights under the terms of the plan.

Joining the plan:

Any person residing in Israel who is not insured with one of the health funds by virtue of the National Health Insurance Law, provided he/she is under the age of 65 years old, can apply to join the plan.

The process for joining the plan includes the submission of an application to join, and completion of a health declaration at one of the Meuhedet clinics located throughout the country. The health declaration is intended to provide an understanding of your health condition as of the date you submit the application: as part of the health declaration, you must report any existing concerns related to your state of health, as required in the regulations. If it is discovered that you have a pre-existing health condition, the HMO may cancel your membership.

Upon registering for the plan you will be required to pay a premium for 4 months in advance: Continued payments will be made each month by debit order at the bank, or at the Meuhedet clinic.

Cancellation of membership:

Cancellation of plan membership may be performed in writing only. You must submit a signed membership cancellation form, following which the cancellation will come into effect within 30 days.

If a debt equivalent to up to three months premium has accumulated, it will be cancelled.

Renewal of your membership entails payment of your debt up to the cancellation date and re-examination of your application to become a member, including a health declaration.

Meuhedet may terminate your membership if it is discovered that your declaration is false, and that you did not declare a prior health condition; or if a health condition requiring medical treatment is discovered during the first year of your membership (the qualification period).

The treatments:

The medical services offered to customers covered under this plan are parallel in part to the National Health Insurance Law, with exceptions and exclusions which are detailed in the plan, as presented on the Meuhedet website. Treatments will be offered in Israel only, and subject to medical approvals.

The information provided in this document is solely for general knowledge, the effective terms for the plan are those specified in the details of the plan, as presented on the Meuhedet website.
